

Glorious News!
In the N. Y. Tribune of April 1st, we find a letter from HORACE GREELEY, from Washington, on the Kansas Investigating Committee. We make the following extract:
"I presume at least this week will be consumed in the election of Clerks, Sergeant-at-Arms, &c., and in preparations, and that the Committee will start for Kansas about the 1st inst., and arrive there between the 10th and 17th of April. But the good effects of its appointment will not so long be waited for—they will be felt before the close of this week. The tidings of its coming will operate as a tonic between the hostile parties; there will be no more Border raids—no need of additional rifles. The House has interposed its authority between the contending parties, and whoever desires to make his home in Kansas may go in peace, and with the assurance of order and quiet. How long Kansas may be kept out of the Union, I will not predict; but she will be admitted by this Congress, and admitted as a Free State. Of this I am joyfully confident. H. G."

Persecution.
The annoyances and persecutions which men, in favor of a Free State for Kansas have suffered here, is almost incredible. We could not believe, if we did not see with our own eyes, daily, that such things could exist in America. Our readers are acquainted with the character of the Kickapoo Rangers—the murders of Brown. They are mostly made up of poor, drinking white men from Missouri—so mean and degraded that no respectable slaveholder would associate with them. These men have been maintained by subscriptions obtained in Missouri, mostly in Platte county, for the express purpose of harassing and driving off Free State settlers. A gentleman who moved into the neighborhood of Kickapoo, from Platte county, knew most of them, personally. He informed us that his wife had recently been on a visit to her friends in Missouri, and when there, she saw a subscription paper passing around, to obtain provisions and funds to keep up and support this company.

Our informant is a gentleman of the strictest integrity, and will probably be summoned, with his wife also, to appear before the Congressional committee and bear testimony to the above facts.

The atrocities which will come to light, through this committee, if they are faithful and fearless, will exceed anything ever before known in civilized life.

Board of Health.
A public meeting, for the purpose of appointing a Board of Health, was held at Union Hall Tuesday evening last, the 18th inst. Gaius Jenkins, Wm. Hutchinson, Dr. S. C. Harrington, Dr. L. C. Tolles, B. W. Woodward, O. Wilmart, R. G. Elliott, A. D. Searl, E. Clark and C. Hornsby were appointed as said Board. The duties of the Board of Health are: To meet as often as practicable; decide what are nuisances, and have power to remove them; exercise a supervision of the water used in town, and guard against impurities about the same; shall have power to provide money to defray expenses created in the performance of their duties. The chairman of the Board to keep a record of all their meetings, and have the same published in the city papers.

We condense the above from the Secretary's report of the meeting, owing to a crowd of other matter and want of room.

A resolution was adopted to send a Committee of three members to Kansas, to take testimony. The Chair, (Mr. Banks,) appointed Messrs. Campbell of Ohio, Howard of Michigan, and Oliver of Missouri. The majority of the Committee are Black Republicans, as might be expected. Now what will the committee do? Reader don't claim to be elected by any law either of the Territory of the United States, but in defiance of all law. Suppose they ascertain Whitfield did get illegal votes, that will not invalidate his election, unless it is proved he got enough to bring his legal vote below the number Reader got on the same day. Unless the Legislature is decided to be an illegal body, and without authority to pass any laws, we cannot see what show Reader has, or what the Committee can do, except to keep up an agitation.—Leavenworth Her.

And that Legislature will be decided an illegal body, without doubt, after the Committee shall have collected all the evidence in the case. That there is sufficient evidence to prove that fact, no man in Kansas, with a spoonful of brains, can for a moment doubt. In one precinct where there were six or seven resident voters, and three Free State men, at one of the elections sixty Missourians came over and voted three times apiece—making an aggregate vote of 180! It is such evidence as this that will prove the Legislature to be an illegal body.

Mr. Stowell.
From Worcester, Mass., has just arrived, with the best wishes of our friends in the East. He wishes us to say he is delighted with the country, and that thousands of the right kind of people are on their way here. Good.

Messrs. Hunt & Co.
We find in the St. Louis Democrat, of the 22d ult., the following card from the above gentlemen:

A CARD TO THE PUBLIC.
Three of the daily journals of our city have voluntarily called the public attention to the fact that we forward merchandise to Kansas; and they have become so deeply interested in this branch of our business as to give us an editorial notice of the arrival of merchandise consigned to our care, and report the same as "spotted." In addition, we are called "negro stealers," "abolitionists," "aiders and abettors of the abolition invaders," &c. It can hardly be necessary to a commercial community to say that such slander can alone come from personal malice.

As forwarding merchants, we have for more than one year shipped merchandise to Kansas, consigned to us by the New England Emigrant Aid company, the New York Emigrant Company, and by citizens of several of the Southern States. We have not seen proper to inquire into the religion or politics of our patrons; neither have we thought it our duty to examine into the packages, or inquire their contents as they passed through our hands, further than is customary with the duties of a forwarding merchant. We know no party or sect in connection with our business; neither can we see why the merchants of St. Louis should be called into the controversy politically between slavery and freedom. We have exerted our humble influence to bring this emigrant transit and business through our city; and we are happy to say that it has already been the means of leaving some hundreds of thousands of dollars here; and we still mean to do all we can to continue this trade with our city. It needs no prophet to foretell the immense business which would naturally come to our city from Kansas within a short time. The emigration now setting in from nearly all the northern, southern and eastern States, will this year be unprecedented in the history of any new State or Territory. A large number will arrive this week, who anticipate spending several thousand dollars in our city for machinery and merchandise.

The route thus far has been most generally through our city. It remains for the citizens of St. Louis, and Missouri, to say whether this source of their prosperity shall be cut off and driven to a northern route, as is now seriously contemplated. If their merchandise is "spotted," or seized in transit; if our merchants are to be called "Abolitionists and negro stealers," who chance to do their business, their patronage as merchants, and to the citizens of Missouri, is at an end.

We have never knowingly made a shipment of Sharp's rifles to Kansas; but it is possible that shipments may have been made by every boat. We are neither openly nor secretly in league with any party. We simply endeavor to do our duty as forwarding merchants, and we intend to remain in this business in St. Louis, so long as we can make it for the mutual interest of our patrons and ourselves. Your obedient servants,
F. A. HUNT & CO.

Sharp's Rifles.
We are credibly informed that these holy instrument of the Beecher school for evangelizing Kansas are daily arriving in our city. Yesterday several suspicious boxes, consigned to a house in this city, were observed on the levee and spotted. The Emigrant Aid Society, the pet of the Abolitionists, instead of the pious and the peaceful implements of agriculture, it seems are using all their efforts to stock Kansas with the tools of death, to be used by their emissaries in that region.—St. Louis Republican.

The Kansas settlers have read in old books and learned from traditions, that in the early settlement of the States the hardy pioneers were imperiled by savage foes, and to protect themselves from sudden attack and barbarous massacre, carried their rifles with them to their corn-fields, to their places of business, and even to their churches. We, in Kansas, are beleaguered by a foe which combines all the cruelty of the savage and the ingenuity of the civilized man. Against the onslaughts of this foe, we have no protection save in our own individual exertions. Sharp's rifles are, therefore, indispensable accompaniments with the "pious and other peaceful implements of agriculture."

New Advertisements.
The reader's attention is called to the advertisement of J. L. Roundy & Co., Receiving, Storing and Forwarding Merchants, of Leavenworth. In making shipments, our friends will do well to consign their goods to this firm. They also have a Furniture Warehouse in connection with the above business.

Also "Lost or Misaid"—"Notice"—and Wm. E. Goodnow's establishment, at Manhattan.

Attention is also directed to the wholesale and retail establishment of the HICKMANS, of Independence, Mo.

Gen. Cass.
The friends of Freedom need expect nothing from Gen. Cass. We had all along supposed that he was committed in favor of the admission of Kansas into the Union as a Free State; but recent events have proved us to be in error. On the 26th ult., he presented, according to promise, the Constitution of the State of Kansas, but said he stood uncommitted for or against it. Can anything good come from an old-line democrat?

Oswatimie Letter List.
The List of Letters remaining in the Oswatimie post-office, will be found in its proper place in this number of the HERALD OF FREEDOM.

LEAVENWORTH, KAN., Ap. 7.
EDITHS HERALD OF FREEDOM.—It becomes my painful duty to inform you that another disgraceful outrage has been perpetrated in our City, and one, too, for which no apology can be offered. Our little-minded Mayor, and his right bower, the Marshal, are now "clothed in a little brief authority," and playing such fantastic tricks, as must compel all honest men to shun our city, or submit to an examination degrading to sensible men.

On Saturday night last, two gentlemen from Iowa landed in our city, on their way to Leavenworth, where they intended opening a "Land Agency." They took up their quarters at the Leavenworth Hotel. Soon after they arrived, one of the "poking committee" called upon them and informed them that they had in their possession some suspicious looking trunks, which were supposed to contain Sharp's rifles, and that they must submit to be searched. The gentlemen replied that they had nothing of the kind, and would not be searched except it was done by the legally constituted authorities; also gave their cards with the number of their room, to the self-constituted committee, who started for our little Irish Mayor, (Wm. E. Murphy), and his associate Marshal, (A. P. Shockley). The worthy then proceeded, (about 2 o'clock at night,) to the room of the gentlemen and compelled them to give up their keys, thinking, undoubtedly, that they were about to obtain a rich booty; but on examination, nothing but books and clothing could be found—these, the would-be robbers kindly left in his possession.

You may, perhaps, judge of our feelings on ascertaining, the next morning, what had occurred, under cover of night. Our entire community, (with the exception of a few poor tools who could not buy a nigger baby if full grown darkeys were selling at two-bits a dozen,) denounce the whole affair in the strongest terms. Pro-Slavery men and all, say that this act of our little Mayor's has done more to injure the prospects of our rapid growing city, than all other things that have ever happened here. Our business men here hold out inducements to the emigrants to land at this point, knowing, as we do, that it is the most accessible point for emigrants, destined for the centre of the Territory. They have also expended their money to build bridges, improve roads, &c., but now consider it as money thrown away. We can no longer have the face to ask emigrants to land here. This is the second outrage of the kind which has been committed here this spring; and this having been committed by our "little Mayor," gives us a slim chance for an excuse. It was the votes of Free State men, and now we must suffer for it until next September, when Free State votes will convince him that he is no longer wanted—that an honest man is wanted in his stead.

We are also having some excitement here, during the session of the Grand Jury. A packed jury has been called for the avowed purpose of "clearing out these higher lawites," but really intended to force a few Free State men, (who took part in the elections last fall,) to flee the country. A general hanging time is talked of, but not anticipated. The persons whose names are now before the Grand Jury, alias Inquisition, are Messrs. Adams, Moore, Marion, Anthony, Hook, Keller, Mitchell and Fisher. A large number of witnesses have been called and interrogated relative to the above named gentlemen. It is supposed that the object of the Inquisition is to get these men out of the way before the Committee of inquiry arrives from Washington. In this they will find themselves mistaken. These men have violated no law, human or divine, and will not be driven from the Territory on this charge of treason, which is so utterly without foundation, as every sensible man knows. The charge will put them to some inconvenience and expense, but will do them no further harm. The government, however, have a fine little bill to settle for all these expenses.

We had supposed here that affairs were becoming more quiet, and that people could attend to business, and to improving the Territory; but it is no use, these pro-Slavery fanatics and paupers shipped here by the Southern Aid Societies are determined to keep up this infernal agitation; and would, if they could, compel every honest man to leave the Territory. Our little Mayor is by no means behind in these agitations. He can hardly call him Mayor though. He is only the plant tool of a few designing fanatics, who have, (on account of his being a stranger to us,) succeeded in putting him forward to do their dirty work for them. But enough this time. I have more to say about the court by-and-by.

Prices Current.
LEAVENWORTH, April 12, 1856.
CORN—60¢ per bush; corn meal 1.00 per 50 lb. bush.
FLOUR—In sacks, \$3.50 per hundred; super-fine, \$4.00.
